

Kunal Singh

Prayagraj, Uttar Pradesh, India — +91 8604189590 — kunalsinghk2003@gmail.com

LinkedIn — GitHub

Career Objective

Aspiring ML Engineer and Software Developer with experience in machine learning, backend APIs, and full-stack development. Skilled in Python, Java, Flask, and AI-driven solutions with a focus on scalable systems and real-world impact.

Education

Bachelor of Technology in Computer Science (AI & ML) 2023–2027
United College of Engineering and Research, Prayagraj

Experience

ECAVO Agro Daily Pvt Ltd — AI Agent Development Intern Jun 2026–Present

- Developed OpenCV-based computer vision models for real-time monitoring and quality inspection.
- Automated production workflows using AI agents, reducing manual intervention.
- Integrated ML pipelines into production systems for intelligent decision-making.
- Collaborated across teams to deploy agentic AI solutions for food manufacturing.

Skills

- | | |
|----------------------------|--------------------|
| • Python, Java, C, Flask | • Git/GitHub |
| • HTML, CSS, JavaScript | • VS Code |
| • Scikit-learn, TensorFlow | • Jupyter Notebook |
| • Generative AI, LLMs | • Google Colab |
| • Prompt Engineering | • Deployment |
| • Fine-Tuning | • Problem Solving |
| • NLP | • Teamwork |
| • API Integration | • Communication |

Projects

Multi-Language Translator

- Built an AI-powered translator using Python and Hugging Face Transformers.
- Implemented automatic language detection, neural machine translation, preprocessing, and tokenization.
- Deployed and tested using Google Colab.

Learning Management System (Django)

- Developed a full-stack LMS with role-based access for Students and Instructors.
- Implemented course management, lesson tracking, file uploads, and certificate generation.
- Added reviews, ratings, searchable catalog, category filters, and dedicated dashboards.

Certifications

- IBM Generative AI Certification (2025)
- Java Programming & Collections Training (2024)
- AWS Cloud Workshop (2026)

Hackathons

Smart India Hackathon 2025 – National Finalist (Top 5 Teams) Dec 2025

Finalist for PSID 25252. Grand Finale hosted at BPUT Odisha. Recognized among the Top 5 teams nationwide for technical excellence, innovation, and impactful solution design.

Agentic AI Hackathon (Microsoft — Shekunj) May 2026

Participated as Team FabCoders at Jawaharlal Institute of Technology, Borawan. Developed an AI-powered Public Healthcare Assistant using agentic AI for real-time health guidance.
